

fermacell product data sheet

**fermacell** Board Knife

For scoring and snapping fermacell Gypsum Fibreboards

Product

fermacell Board Knife is a tool with a hooked blade for scoring and snapping **fermacell** Gypsum Fibreboards.

Application

fermacell Board Knife is a hand tool for cutting **fermacell** Gypsum Fibreboards. The knife produces a V-cut and with downward pressure allows the board to be easily snapped to the required size.

Properties

- **Hardened Steel** - tungsten tip
- **Easy to use** - smooth and easy scoring of **fermacell** Gypsum Fibreboards
- **Off Cuts** - you must install the boards with a 5 - 7 mm gap at joints

Application/Processing

- Ensure safe working height and mark the dimensions for cutting
- Use a straight edge as a guide to score along, and repeat scoring if needed
- Snap the scored section of the board downwards

Please also note our installation instructions and further information in our brochures:
